

Year 1 Science Is a tree a plant?

Sticky Knowledge

Plants grow and change throughout the year.

Trees are plants and are made up of different parts.

Evergreen trees keep their green leaves all year round.

Deciduous trees lose their leaves in the autumn.

The main parts of a flowering plant are roots, stem, leaves and flower.

Scientific skills I will develop

To observe closely, using simple equipment.

To use observations and ideas to suggest answers to questions.

Vocabulary

wild plants	A wild plant seed grows where it falls. It doesn't need to be planted or cared for as it grows.
garden plants	Garden plants are plants that people choose to grow in their gardens.
weed	Weeds are wild plants that grow in places where people don't want them.
deciduous	A deciduous tree loses its leaves each year.
evergreen	An evergreen tree keeps its green leaves all year round, even in the winter.
