

The big school adventure

Help your character reach their new classroom at the top of the board by getting ready for school! Roll the dice, move along the path and see if you're prepared for the school day. Land on special spaces to climb higher or slide back if you're not completely ready yet.

How to play:

1. Print out the board game and cut out the dice and counters (if needed). Paste the two parts of the board game together and read the rules. You are ready to play!
2. Each player places their counter on the **START** space at the bottom of the board.
3. If you land on a **READY STAR** space: Well done on getting ready for school!
4. If you land on a Forgetful Footstep: Oh no! Something happened and you will be late for school! Slide down.
5. The first player to reach the **CLASSROOM** wins!

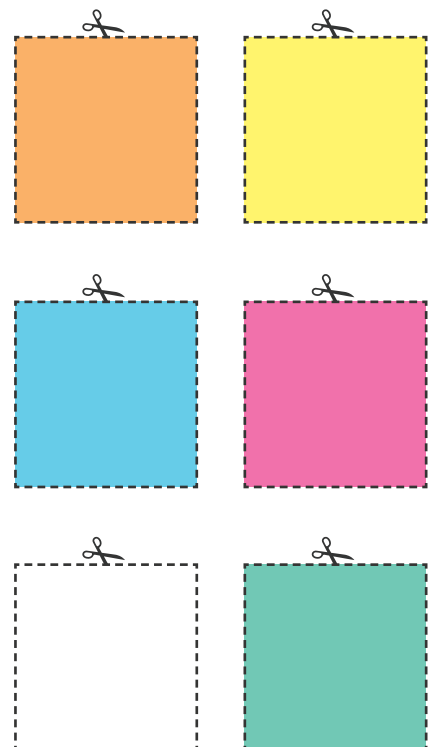

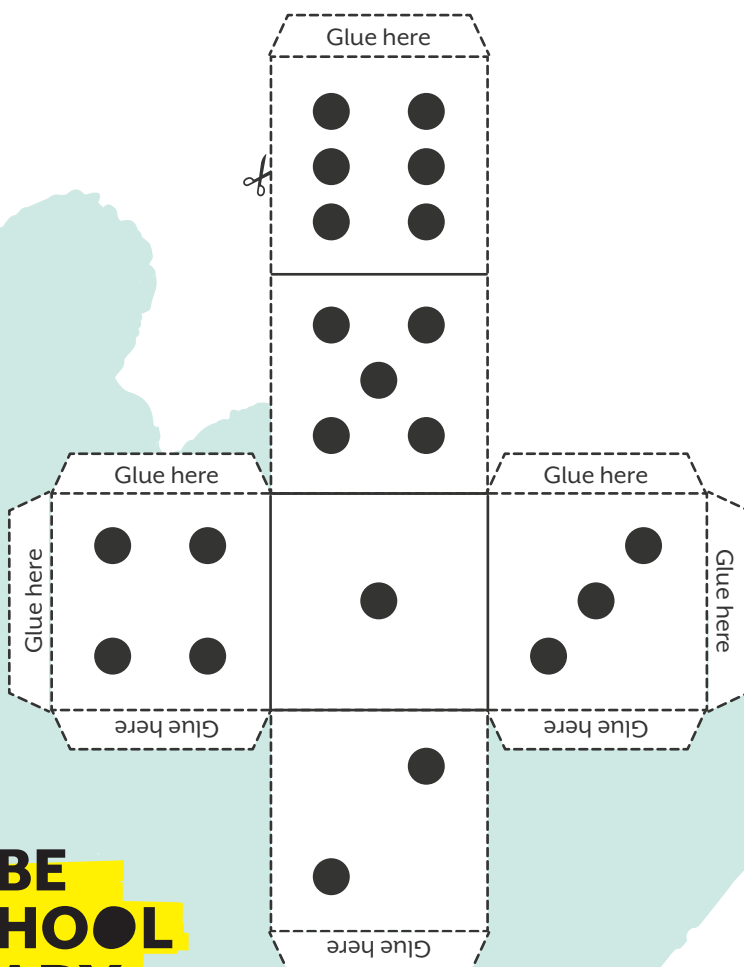

You need:

1. A standard dice (or use the cut out below)
2. A small counter for each player, like a coin or button (or use the cut outs below)

Tip!

This is a great game to play to introduce your child to their new school routine. Ask them questions about starting school and remember to answer their questions with a positive attitude!
